HealthPay

A Digital Healthcare Payments & Billing Platform

Seamless. Transparent. Built for Nigeria.

Powered by Interswitch

The Problem

Cash Dependent

Patients rely on cash or disconnected payment methods

Manual Billing

Providers reconcile records by hand, causing errors and delays

Low Transparency

HMOs face disputes and limited visibility into claims

Revenue Leakage

Poor cash flow, missed payments, and operational inefficiency

Our Solution

A unified digital platform that connects patients, healthcare providers, and insurers - enabling seamless, automated medical payments across Nigeria.

Pay

Patients pay with Verve cards or bank transfer in seconds

Bill

Providers get automatic billing, dashboards & digital receipts

Settle

Insurers receive digital claims with full audit trails

How It Works

1. Book Appointment
2. Make Payment
3. Confirmed Instantly
4. Provider Updated
5. Digital Receipt
6. Insurance Settled

Powered by Interswitch API-- real-time webhooks, split payments, and automatic reconciliation.

Who It's For

Patients

- Pay instantly without cash
- Transparent billing & receipts
- Less waiting time at facilities

Healthcare Providers

- Automated reconciliation
- Centralized payment records
- Better cash flow

HMOs & Insurers

- Faster claims settlement
- Clear audit trails
- Reduced fraud risk

MVP & Roadmap

Phase 1 - MVP

- Appointment booking
- Payment via Interswitch
- Real-time provider dashboard update
- Digital receipt generation

Phase 2 - Future

- AI-powered unpaid bill detection
- Blockchain audit trail for claims
- Installment payment plans
- Automated patient reminders

One Platform.
Every Payment.
All of Healthcare.

Connecting Nigerian patients, providers, and insurers — seamlessly, securely, digitally.
